All-New Outlander PHEV

Refined style, adventurous spirit

Take a step further

Step into a world where modern design and innovation come together.

With a focus on comfort, advanced driver assistance systems, and an efficient EV-based powertrain, the all-new Outlander PHEV is the perfect companion for any journey. Whether navigating city streets or exploring the outdoors, this SUV is ready to take you wherever you want to go.

01

Design

Heritage meets sophistication

A commanding presence, adventurous spirit and Mitsubishi Motors' SUV heritage come together in a design that blends toughness with contemporary sophistication.

A sculpted, confident form

The Outlander PHEV combines a bold, confident design with purposeful elegance. Sculpted sides, 20-inch wheels and a jet tail fin-like rear pillar give the vehicle a solid refined look, perfect for those seeking a modern SUV.

Distinctive LED lighting

The rear of the Outlander PHEV showcases the Hexaguard Horizon design motif and distinctive T-shaped LED tail-lights, enhancing its wide stance and ensuring visibility.

A new face of strength

The all-new Outlander PHEV catches the eye with its distinctive "Dynamic Shield" front design that creates a feeling of protection and performance. Its strong stance and broad shoulders exude power and stability, reflecting the fearless spirit that's ready to tackle any journey.

Interior

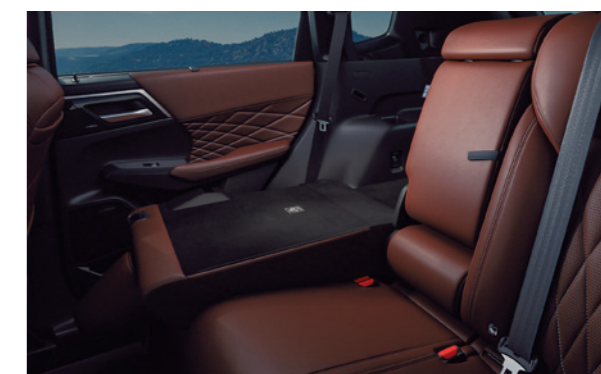

Feel the difference

The elegant interior offers a peaceful space, blending sophistication and serenity. The door panels, dashboard, and centre console are all beautifully padded for a refined feel. Choose a higher grade, and you'll enjoy luxurious quilted leather seats with ventilation and massage function in the front row.

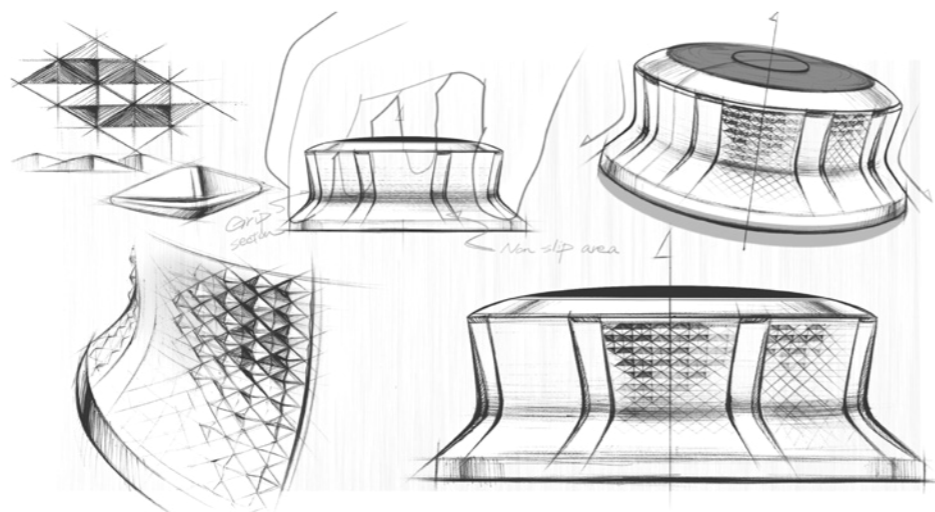

For every journey

The Outlander PHEV is built to fit your lifestyle, offering a spacious cargo area and versatile seating that adapts to your plans. Whether you're loading up for a weekend escape or packing for a spontaneous adventure, the flexible interior ensures you can bring everything along with ease. Onboard connectivity keeps you seamlessly linked to your digital world while on the go.

Engineered for your comfort

In the Outlander PHEV, every design element is defined by meticulous attention to detail, ensuring superior comfort and confidence on every journey. Intuitive controls, a thoughtfully designed steering wheel and shift lever provide ease of use and reliability.

A warm welcome

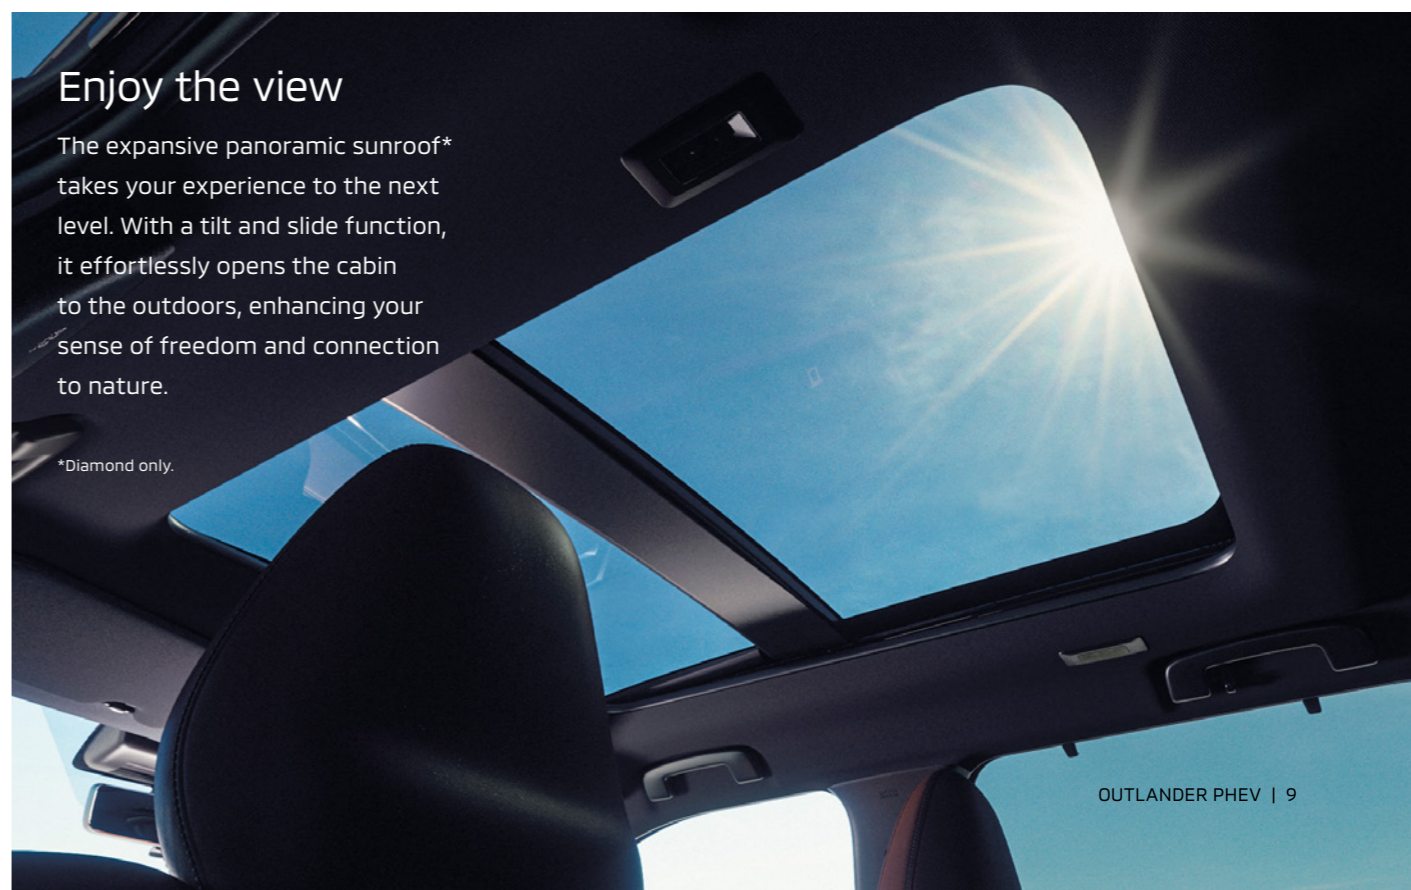

The horizontal axis design of the instrument panel creates a spacious, rich interior. Smart storage spaces and seamlessly integrated technology reflect the Japanese craftsmanship and the spirit of "omotenashi," offering a warm welcome.

Enjoy the view

The expansive panoramic sunroof* takes your experience to the next level. With a tilt and slide function, it effortlessly opens the cabin to the outdoors, enhancing your sense of freedom and connection to nature.

*Diamond only.

Clearer vision, every time

When passengers, cargo, or challenging weather obstruct your view, the frameless rearview mirror* provides a flawless solution. By activating the rear camera, it delivers a sharp, wide-angle image, improving visibility behind the vehicle. Whether you're driving in the dark, rain, or with a full load, this innovative feature ensures safer, more confident driving in any condition.

Seamless connectivity

The Smartphone-link Display Audio (SDA) acts as the central infotainment hub. It wirelessly mirrors your smartphone via Apple CarPlay™ (wireless) or Android Auto™ (wired), giving you seamless connectivity through the central 12.3-inch touchscreen. A charging mat provides extra convenience, automatically charging your phone when placed on it.

Digital driver display

The 12.3-inch digital driver display offers a clear view of your vehicle's status, including speed, drive mode, and fuel efficiency. With high-resolution TFT technology, it delivers sharp visuals. You can easily customise the display using the steering wheel controls, so it's set just the way you want.

The tailgate that thinks ahead

Designed for convenience and style, the Outlander PHEV's automatic power tailgate opens effortlessly with a simple foot motion* beneath the rear bumper. Its adjustable lift height ensures clearance for low garage doors, while the flat loading floor makes it easy to load larger items and gear.

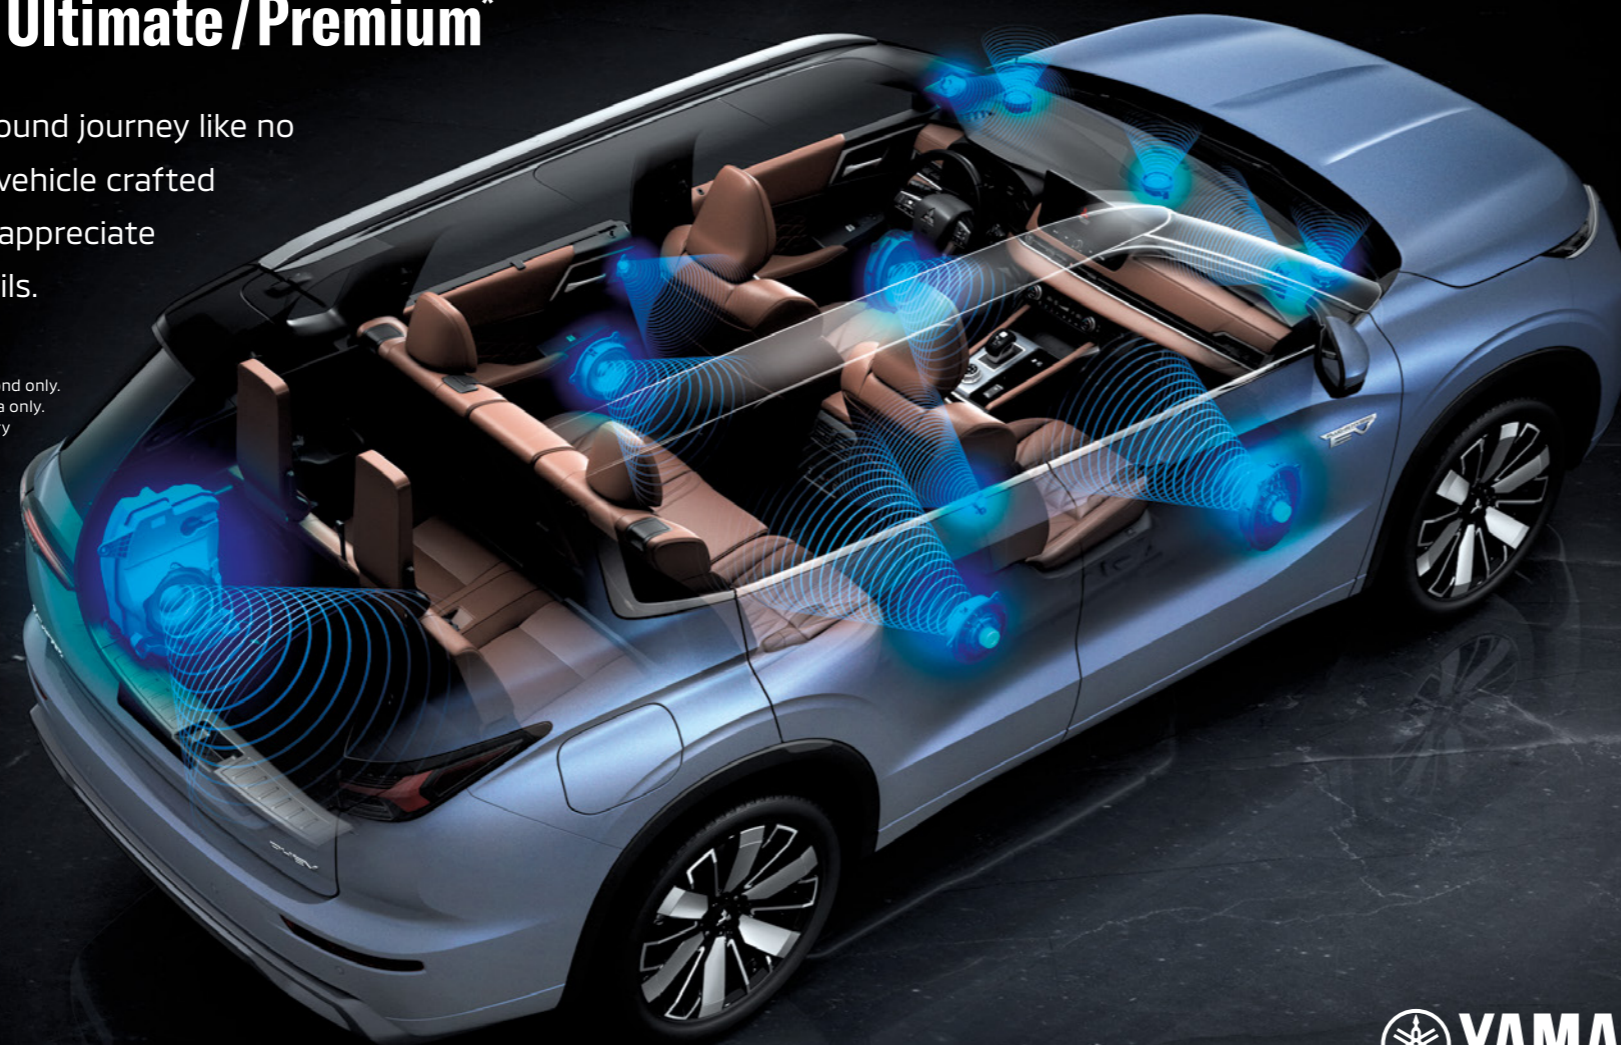

*Diamond only.

Dynamic Sound YAMAHA Ultimate / Premium*

Experience a sound journey like no other, inside a vehicle crafted for those who appreciate the finest details.

*Ultimate available on Diamond only.
Premium available on Nativa only.
7 seat specification may vary on UK model.

*Ultimate available on Diamond only.
Premium available on Nativa only.

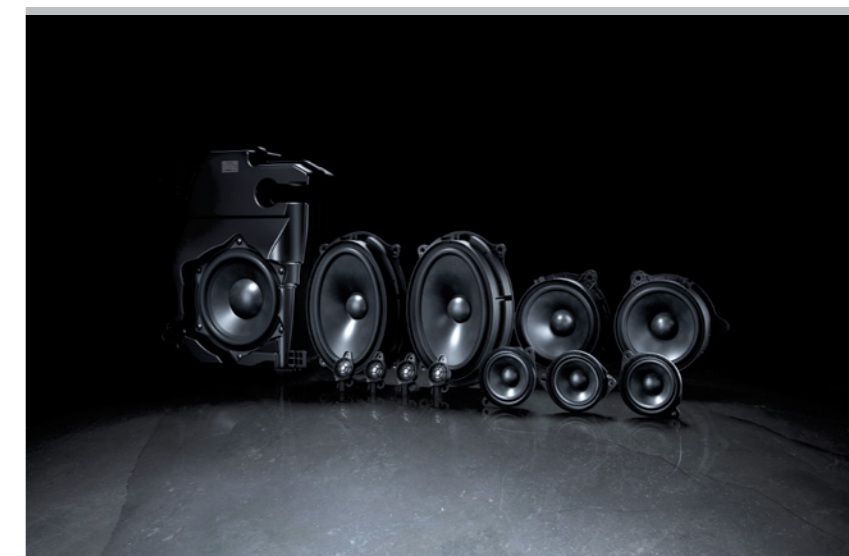

A live music experience

Engineered by the Sound Meisters, Dynamic Sound Yamaha Ultimate and Premium offer an exceptional audio experience. With 12 speakers and dual amplifiers (Diamond) or 8 speakers (Nativa), the interior becomes your personal concert hall, delivering clarity and depth that elevate every genre.

Hear every note, no matter the conditions

Specially designed door panels enhance acoustic performance, while 4 music profiles let you tailor your listening experience. Volume automatically adjusts based on speed, rain, and air conditioning for a seamless audio experience, no matter the conditions. Elevate every drive with sound that surrounds and delights.

Perfect harmony of sound and engineering

Yamaha's legendary musical instrument craftsmanship and Mitsubishi Motors' exceptional car engineering collaborate to redefine the relationship between music and driving. So immersive is the sound, it seems as if the music artist is right in front of you, elevating the driving experience and inspiring listeners to move beyond boundaries.

All-New Outlander PHEV

Up to 8-year warranty

Enjoy the peace of mind that comes with an up to 8-year/100,000 miles Vehicle and Battery Capacity Warranty and 5 years of roadside assistance (MAP).*

Impressive range

With the 53 mile electric range plus the petrol engine, the all-new Outlander PHEV offers a total driving range of up to 500 miles with over 313mpg.

7 Drive modes

The 7 drive modes, including Tarmac, Gravel and Snow help you achieve the best performance in all conditions.

Modern and dynamic

The front of the all-new Outlander PHEV features the bold Dynamic Shield design, delivering a sense of protection and security. Equipped with 20-inch wheels, adaptive LED headlights, and a striking modern SUV profile, it's built to stand out.

2 Electric motors with S-AWC

Powered by a twin motor 4x4 system with Super-All Wheel Control (S-AWC), the Outlander PHEV offers a long-range, electric-based driving experience to tackle any terrain.

Interior

The spacious cabin comfortably accommodates five adults and their luggage. Enjoy premium features like Dynamic Sound Yamaha Ultimate, power panoramic sunroof, and 3-zone automatic climate control.

Advanced safety features

The Outlander PHEV is packed with advanced driver-assistance systems, such as Rear Automatic Emergency Braking, Adaptive Cruise Control, and Emergency Lane Assist all designed to enhance your driving confidence.

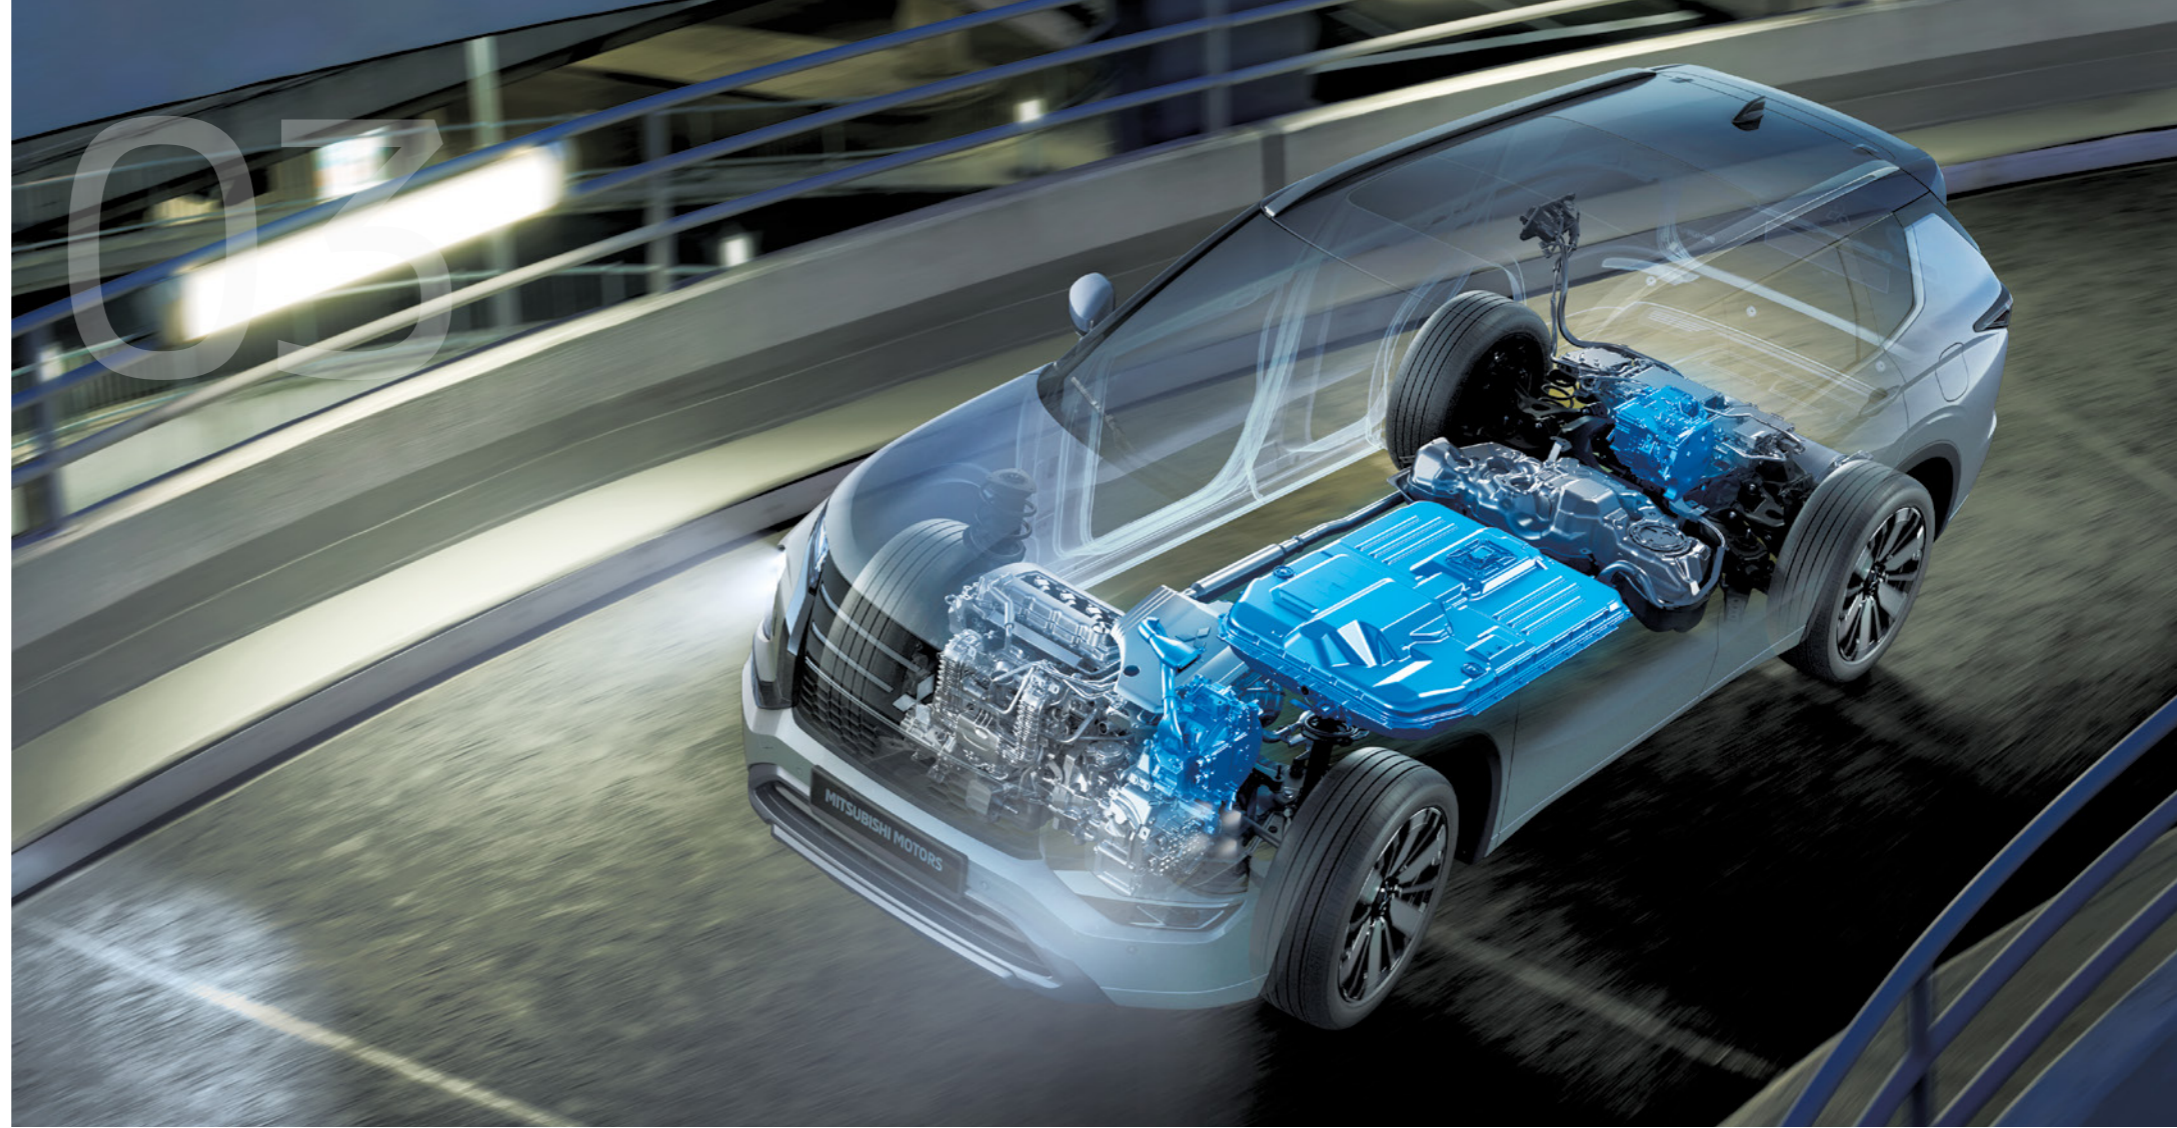

PHEV technology

The Ultimate Plug-in Hybrid Electric Vehicle

Step into a new era of driving with the all-new Outlander PHEV. Its twin electric motors and advanced petrol engine work perfectly together delivering an EV-based powertrain with top-tier performance. Feel the smooth, efficient power of this cutting-edge plug-in hybrid SUV.

PHEV modes for maximum efficiency

The Outlander PHEV features two independently mounted electric motors for a quiet, smooth ride, working seamlessly with a petrol engine across three drive modes to ensure the best performance for any journey.

EV Mode

Both motors draw power directly from the battery, delivering a smooth, responsive, and near-silent driving experience. With zero tailpipe emissions and instant torque, this mode is ideal for short journeys, city driving, and low-speed conditions where efficiency and refinement are key.

Series Hybrid Mode

In this mode, the electric motors continue to power the vehicle, but their energy comes from electricity generated by the engine rather than the battery alone. The engine works as a generator, ensuring a consistent supply of power while maintaining the quiet, electric-driven feel of the drive.

Parallel Hybrid Mode

At higher speeds, such as motorway driving, the engine takes over as the primary source of propulsion for optimal efficiency. The electric motors step in to provide additional support when extra power is needed, such as during acceleration or overtaking, ensuring a balanced combination of performance and fuel economy.

Innovative Pedal Operation

Accelerate and decelerate using only the accelerator pedal. Enjoy a smoother, more intuitive drive with enhanced peace of mind.

Regenerative Braking

Transforms kinetic energy into battery power. It activates automatically when you release the accelerator. Adjust the level of braking using the paddle shifters behind the steering wheel.

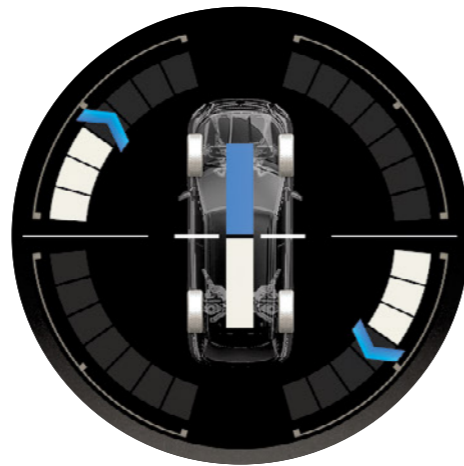

Super-All Wheel Control

04

Exceptional stability, wherever you go

The all-new Outlander PHEV features the latest Super-All Wheel Control system, refined through years of motorsport expertise. This advanced all-wheel drive system automatically adjusts driving and braking forces to each wheel for optimal performance when accelerating, turning, or braking.

Drive Mode Selector

Optimal performance for every journey

Tailor your driving experience with the Drive Mode Selector, giving you the confidence to tackle any terrain. Simply rotate the dial and select one of seven settings displayed on the Multi Information Display. From smooth tarmac to rough gravel, each mode ensures maximum traction and control.

Safety

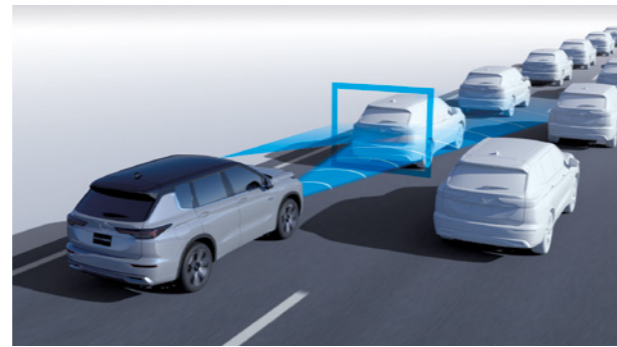

Traffic Sign Recognition [TSR]

Stay informed on the road with TSR, which displays traffic signs on the digital driver display to keep you aware of speed limits and other essential information.

Adaptive Cruise Control [ACC]

Maintain your set speed while keeping a safe distance from the car ahead. ACC adjusts speed automatically and can bring your vehicle to a full stop if necessary, resuming when traffic moves.

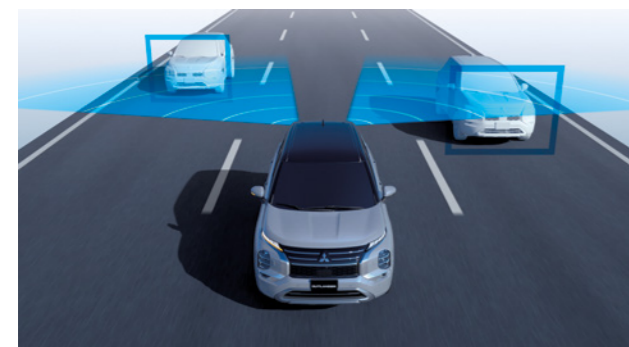

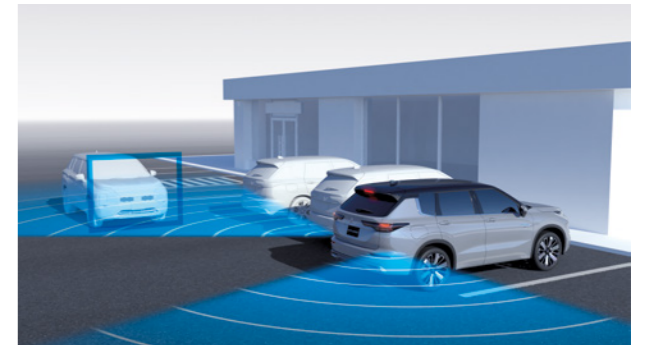

Emergency Lane Assist [ELA]

Stay safely in your lane with ELA, using a front camera to detect road markings. It activates the brake control system to correct unintentional drifting and avoids collisions with oncoming or blind-spot vehicles during lane changes.

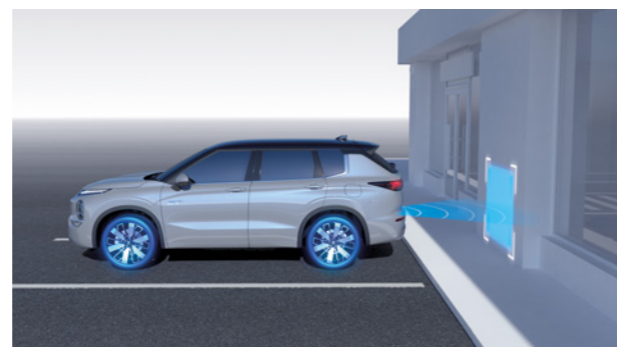

Rear Cross Traffic Alert [RCTA]

Reverse with confidence. RCTA uses radar to spot approaching vehicles or pedestrians behind you. Visual and audible warnings keep you aware, making it especially helpful in low-visibility situations.

Blind Spot Warning [BSW] with Lane Change Assist [LCA]

This system detects when a vehicle is in or approaching your blind spot - diagonally behind your vehicle and in an adjacent lane. If there's a vehicle in those areas, a warning light comes on in the corresponding side mirror.

Rear Automatic Emergency Braking [RAEB]

This system uses sonar and a rear camera to detect objects near the rear bumper. If an object is detected, it sounds a warning, applies the brakes, and reduces the chance of a collision.

Forward Collision Mitigation System [FCM]

Braking that anticipates danger. FCM monitors the distance to vehicles, pedestrians, or motorcyclists ahead. If a collision risk arises, it warns you and enhances braking. If no action is taken, it automatically slows or stops the vehicle.

Driver Attention Alert [DAA]

Displays a warning message for the driver to take a break when low attention is detected based on their steering operation. Helps prevent driving under fatigue, even if the driver is unaware of their fatigue.

Connectivity

Smartphone-link Display Audio (SDA)

Stay connected and entertained on the go with the Smartphone-link Display Audio system. By simply pairing your device via wireless Apple CarPlay® or Android Auto™ you can access your favourite apps, music, and messages directly on the SDA screen. Whether you're an iPhone or Android user, your digital world is just a touch away.

Head-up display

You can safely and quickly recognise driving information without taking your eyes off the road. The Outlander PHEV is equipped with a windshield-type head-up display which projects all the vital driving information you need in full colour right in front of you.

*Diamond only.

Personalisation

Make it yours

Express your style with the Outlander PHEV's range of five striking colours, such as Moonstone Grey.

For a more exclusive look, choose one of the diamond finishes, like Black Diamond or White Diamond.

▲ Moonstone Grey

▲ Red Diamond (Nativa only)

▲ Black Diamond

▲ White Diamond

▲ White

Memory key functions

Personalised comfort

With the KOS key, your Outlander PHEV recognises the driver and automatically adjusts the seat and meter settings for a tailored experience.

Power adjustable seat & memory

Effortlessly return to your perfect driving position. The 8-way power-adjustable driver's seat stores preferences for two users, making switching drivers quick and convenient.

*Diamond only.

Specification Summary

Technical	Nativa	Diamond
Engine	4B12 2.4l D4 MPI	■
Engine Size	2360cc	■
Fuel Type	Petrol (90+ RON)	■
Fuel Tank Capacity	53 Litres	■
Transmission	Single Speed Transaxle	■
Drive Type	4WD - Twin Motor	■
Safety & Security	Nativa	Diamond
MI-PILOT	■	■
Lane Keep Assist		
Adaptive Cruise Control (ACC)		
Traffic Jam Assist		
ABS (Anti-lock Braking System)	■	■
Active Stability Control (ASC)	■	■
Active Traction Control (ATC)	■	■
Air Bag (Driver, Passenger, Centre, Side, Curtain, Knee)	■	■
Auto Door Lock by Speed Sensing	■	■
Blind Spot Intervention	■	■
Blind Spot Warning (BSW)	■	■

These figures were obtained using a combination of battery power and fuel. The Mitsubishi Outlander PHEV is a plug-in hybrid vehicle requiring mains electricity for charging. Figures shown are for comparability purposes. Only compare fuel consumption, CO2 and electric range figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including, accessories fitted (post-registration), variations in weather, driving styles and vehicle load.

Technical Specification & Dimensions

Performance	Nativa	Diamond
Engine type	4B12	
Fuel type	Petrol / Electric	
Displacement (cc)	2,360	
Front Electric Motor - power (kW)	85	
Front Electric Motor - Torque (Nm)	255	
Rear Electric Motor - power (kW)	100	
Rear Electric Motor - Torque (Nm)	195	
Max power output - kW (PS) @ rpm	220 (299) @ 5000	
Max torque - Nm (ft lb) @ rpm	195 (143.8) @ 4300	
Acceleration 0-62 mph (secs)	7.9	
Maximum speed - mph (km/h)	106 (170)	
Traction Battery		
Battery Type	lithium-ion	
Battery Voltage	350	
Usable/Net Battery Capacity (kWh)	22.7	
Charging time (0-100% - approx) - 16A supply	6.5 hours	
Charging time (0-80% - approx) - 105A supply	32 mins	
Equivalent All Electric Range (EAER) - miles (km)	53.6 (86.4)	
CO ₂ Emissions & Energy Consumption		
WLTP - CO ₂ - Weighted Combined - g/km (Euro 6e)	20.3	
WLTP - Fuel Consumption - Weighted Combined - mpg (l/100km)	313.24 (0.9018)	
WLTP - Fuel Consumption - Vehicle Low - Low speed (city) - mpg (l/100km)	80.7 (3.5)	
WLTP - Fuel Consumption - Vehicle Low - Medium speed (town) - mpg (l/100km)	40.9 (6.9)	
WLTP - Fuel Consumption - Vehicle Low - High speed (rural) - mpg (l/100km)	35.7 (7.9)	
WLTP - Fuel Consumption - Vehicle Low - Extra High speed (motorway) - mpg (l/100km)	33.6 (8.4)	
ECfinal (Wh/km)	250.1	
Transmission		
Transmission type	Automatic	
Automatic type	Single fixed	
Suspension/Steering/Tyres		
Front suspension	MacPherson strut with stabiliser bar	
Rear suspension	Multi-link with stabiliser bar	
Drivetrain type	Twin Motor AWD	
Min. turning circle - diameter (m)	11	
Wheels	20" Alloy	
Tyres	255/45R20 101	
Servicing/Warranty		
Service Intervals	12,500 miles or 12 months whichever comes first	
Warranty	Up to 8 years, 100k miles main vehicle and EV battery	
Insurance Ratings		
Group Ratings	47D	47D

Weights/Volumes	Nativa	Diamond
Gross vehicle weight (kg)	2,865	2,665
Kerb weight (kg)	2,154	2,148
Max payload capacity Gross (kg)	711	517
Maximum front axle load (kg)	1,385	
Maximum rear axle load (kg)	1,545	
Braked towing capacity (kg)	1,600	
Unbraked towing capacity (kg)	750	
Roof loading capacity (kg)	80	
Seating capacity	7	5
Fuel tank capacity (l)	53	
Wading depth (mm)	Not published by Mitsubishi Motors	
Dimensions		
Length x Width x Height (mm)	4720 x 1862 x 1751	
Ground clearance - unladen (mm)	199	
Approach angle (°)	18.7	
Departure angle (°)	22.5	
Ramp breakover (°)	18
